

**Representing finishing professionals in surface engineering  
and coatings since 1925**

## **Chemical Process Technologist Doncasters Bramah**

Are you an experienced Chemical Process Technologist looking for a new exciting role?

At Doncasters we are currently recruiting for a Chemical Process Technologist to join our growing team based in our Sheffield.

### **The Role**

As a Chemical Process Technologist, you will ensure compliance to complex aerospace requirements. You will use your experience to work to set customer specifications analysing chemical process solutions and effluent treatment plant outputs.

You will utilise your organisation skills to ensure tasks are prioritised and completed within set production times and will work with wider project teams to deliver site wide .

This is an excellent opportunity to join a highly successful manufacturing facility within globally recognised leading Group.

### **Interested?**

To join our team, we are looking for an individual who has proven experience in a similar role or experience in chemical processing solutions.

If you are a strong decision maker, who positively accepts and seeks out new challenges then we would like to hear from you.

### **Why Doncasters?**

As a Chemical Process Technologist, you will receive extensive training, working within an experienced team. You will receive continuous feedback to help you grow and develop to ensure you maximise your potential.

We also offer a generous holiday allowance, onsite parking, company benefits and competitive salary.

### **To Apply**

To apply for this opportunity with a copy of your CV or to request a full copy of the JD please email [careers@doncasters.com](mailto:careers@doncasters.com)

We'll be in touch with you quickly after receiving your application.

The role is for a 12 month position.
