

Subject Index 2005, Volume 83

- Acid tin methanesulphonate electrolytes 43
Alternating voltage passivation 95
Alumina 233
Aluminium alloys 35,125,154
Aluminium anodised templates 35
Anodes 291,296
Anodic selective dissolution 35
Anodising 35,233
Atomic force microscopy 43,63,125,154,238
Atomic force-distance curves 63
Auger spectroscopy 286
Automobile sheeting 269
Biocides 19
Book review 119,268
Brewster angle ellipsometry 238
Capacitance 255
Cement kiln dust 210
Ceramal anodes 141
Chemical substitution issues 2
Chloride ions 43
Chromate coatings growth 125
Chromispe-C electrolytes 141
Chromium (III) 272
Chromium (VI) 130,272
Chromium coatings 130
Chromium electrodeposition 141
Chromium(III) colour 27
Co(II)-ammonia complexes 68
Coating adhesion 286
Cobalt alloy coatings 248
Cobalt chloride 198
Cobalt complex composition 68
Cobalt electrodeposition 198
Cobalt sulphate 281
Cobalt sulphide coatings 68
Cobalt-molybdenum coatings 248
Cobalt-nickel coatings 248
Cobalt-nickel-molybdenum coatings 248
Cobalt-phosphorus films 281
Colour measurement 27
Colour 27
Complexant shape 300
Complexant stability 300
Composite coatings 130,181,188
Composites 291,296
Conversion coatings 125,154,258
Copper electrodeposition 171,194
Copper 125
Corrosion resistance 72,99,130,154,181,188,205
Cr(VI)-free colouring of stainless steel 95
Environmental impact 165,167,272
Ethylene glycol-choline chloride 51
European electroplating industry 2
European environmental regulations 2
Faradaic current profiles 171
Fluoride film 286
Fracture 286
Functional chromium deposits 272
Galvanised steel 205
Gold electrodeposition 72,148
Gold electrodeposits 72
Grain size 72
Hardness 104
Heavy metal ion removal 210
Hot sulphuric acid passivation 95
Hydrogen evolution 137
Impedance measurements 255
Ion chromatography 43
Jewellery 268
Lead alloys 291,296
Lead composite anodes 291,296
Lead-cobalt coatings 291,296
Light absorption spectra 68
Magnesium alloys 91,286
Magnetic properties 82
Mathematical modelling 82
Microbially influenced corrosion 205
Micro-electromechanical systems 248
Microstructure 281
Morphology 43,188,286
Nanoporosity 35
Nanoporous structures 35
Nickel alloy coatings 137
Nickel plating 226
Nickel sulphate-thiocyanate 137
Nickel-alumina coatings 181
Nickel-iron coatings 82
Nickel-manganese-sulphur coatings 137
Nitric acid passivation 158
Occupational exposure 226
Optoelectronics 233
Organic polymer particles 188
Parallel plate flow electrodeposition 82
Passivation treatment additives 158
Passivation 158,255
Phosphating 154
Phosphorus content 91
Photoluminescence 233
Plating additives 194
Platinum bromide electrolyte 77
Platinum electrodeposition 77

Crystalline-amorphous transition 281
Current density control 148
Cyanide replacement 300
Cyclic voltammetry 291,296,300
Differential scanning calorimetry 91
Economic challenges 2
Editorial 1,217
Effluent treatment 210
Electrocatalysis 137
Electrochemical conservation
method 19
Electrochemical impedance
spectroscopy 72,130,154,181
Electrochemical stability 141
Electrodeposit texture 99
Electrodeposition 72,77,82,99,130,
137,141,148,171,
181,189,194,249,291,296,300
Electroforming 268
Electroless cobalt-phosphorus
deposition 281
Electroless deposition 281,286
Electroless nickel deposition 91,286
Electron microscopy
72,77,99,104,188,205,252,
258,281,286,291,296
Electroplating 226,272
Electropolishing 51
Electrowinning 291,296
Energy dispersive X-ray
spectroscopy 205,281
Environmental emissions 226
Platinum-iridium coatings 77
Polarisation curves 198
Porosity 72,130
Porous anodic alumina 233
Pulse plating 72,148,194
Pulse reverse electrodeposition 171
Silicon carbide particles 130
Silicon substrate 238
Sports equipment materials 119
Stainless steel 51,95,158,255,258
Static magnetic fields 154
Structurally graded films 281
Surface roughness 238
Tafel equation 121
Technology challenges and
opportunities 164,167
Thickness 43
Thiobacillus Ferrooxidans 205
Tin deposit composition 43
Tin electrodeposits 43
Ultrasonic cavitation 109
Ultrasonic cleaning 109
Weldable primer coatings 269
X-ray diffraction 77,91,99,104
Zinc acetate electrolyte 104,300
Zinc coatings 99,105,188,205,300
Zinc electrodeposition 99,105,300
Zinc electrowinning 291,296
Zinc phosphate coatings 258
Zinc-cobalt coatings 188
