

- 42 Guest Editorial by D. Gabe
- 43 New members - IMF session 1 July 2003 to 30 June 2004
- 44 Industry News and Product Update
- 45 Technician Certificate Examination Report
- 46 Current Literature
- 49 Transactions contents volume 82, 2004

### Transactions

- 133 Computer Aided Design (CAD) Based Optimization of Chromium Plating Processes for Complex Parts - G Nelissen, B Van den Bossche, M Purcar, J Deconinck and L Bortels
- 137 Formation of Phosphate Coatings on Steel and Corrosion Performance of Phosphated Specimens in Alkaline Solutions - O Girčienė, R Ramanauskas, V Burokas and A Martusienė
- 141 Mechanical Properties of Electrodeposited Nanocrystalline Nickel - W N Lei, D Zhu and N S Qu
- 144 The Structure of Ni-P Films Electrodeposited by Pulsed Current - A N Gulivets, V A Zabludovsky, A S Baskevich, E Ph Shtapenko and R Ph Ganitch
- 147 Structural Transitions of Ni-P Films Electrodeposited by Pulsed Current- A N Gulivets, V A Zabludovsky, A S Baskevich, E Ph Shtapenko and R Ph Ganitch
- 150 Influence of Chloride Ion in Acid Tin Methanesulphonate Electrolytes- N M Martyak and R Seefeldt
- 157 Decorative and Corrosion-Protective Effect upon Colouring Anodised Aluminium with Azodyes - E Stoyanova, St Takeva, Z Kostov and D Stoychev
- 164 Role of Thiamine Hydrochloride and Gelatin on the Electrodeposition of Zinc - R Sekar, R M Krishnan, V S Muralidharan and S Jayakrishnan
- 169 The Effect of Heat Treatment on the Fe-Sn Alloy System -T J Crichton and J P G Farr
- 174 Multilayered Zinc-Nickel and Zinc-Cobalt Alloys — Corrosion Resistance under Simulated Conditions and Field Exposure by M Pushpavanam and M Siluvai Michael
- 181 Use of Eductors for Agitation of Anodising Solutions- D R Gabe
- 185 Effect of Carbide Particles on Chromium Electrodeposition and Protective Properties of Chromium - S Survilienė, A Cešunienė and R Juškėnas
- 190 Annual indexes

- 20 Guest Editorial — Reducing Plating Losses Makes Sense  
21 Avoid Nickel Plating Losses — Protect the Environment and Improve Profitability:  
Guidelines to Help Prevent the Loss of Nickel and its Salts from the Finishing Shop by  
B Fisher  
30 Hallmarking by P Farr  
32 News  
34 An Icon of the Anodizing World Retires at 85 Years Young, F Spicer by Ted Short  
35 Seminar Report - Midland Branch Seminar on the European Union's Nickel Risk  
Assessment (RA) by R R Read  
37 Minutes of the Extraordinary General Meeting  
37 Current Literature

**Transactions**

- 75 A General Steady State Model of Cascade Rinsing Systems - E Giebler  
83 Properties of Chromium Coatings Deposited from "Sulpho-ChromispeI-I" Electrolyte  
of Standard Concentration - R Mantcheva  
87 Electrodeposition of Lead from Acetate Electrolyte Containing Additives -  
M A M Ibrahim, M A Amin and M A Abbass  
93 Selective Dissolution of Electrodeposited Zn-Ni Alloy Coatings - E Ivaškevič,  
A Selskis, A Kaliničenko and R Ramanauskas  
98 Characteristics of Zinc Corrosion and Formation of Conversion Films on the Zinc  
Surface in Acidic Solutions of Cr(III) Compounds - V Dikinis, V Rézaitė, I Demčenko,  
A Selskis, T Bernatavičius and R Šarmaitis  
105 A Comparison of the Surface Chemistries of Chromium Electroplated Finishes -  
P A W Lansdell and J P G Farr  
114 Reaction Process of Two-step Catalysation Pre-treatment for Electroless Plating on  
Non-conducting Substrates by K Yamagishi, N Okamoto, N Mitsumata, NFukumuro,  
S Yae and H Matsuda  
118 An in situ Raman Investigation of Organic Species Incorporated in Cu Layers  
Electrodeposited from PEG-containing Acidic Sulphate and Cyanoalkaline Electrolytes  
- B Bozzini, L D'Urzo, G Giovannelli and CMele  
123 Corrosion Behavior of TiN/a-C Superhard Nanocomposite Coatings Prepared by a  
Reactive DC Magnetron Sputtering Process - H C Barshilia, M S Prakash, A Poojari  
and K S Rajam

**Technical Note**

- 129 Producing Composite Material by Liquid-Solid Roll-bonding by G M Xu and J Z Cui

- 2 Branch reports – IMF Southern Branch, New techniques in the processing of metals - D Colwell
- 2 IMF Midland Branch – Report on the 'Legislation updates (IPPC, SED, WM) and new technologies for the treatment of wastewaters symposium - R R Read
- 4 Industry News
- 5 Profile of Tinplate Group Coatings Division managed by C Kerr, article by J Symons
- 7 Sustainable Technologies for the Regeneration of Acidic Tin Stripping Solutions used in PCB Fabrication - C. Kerr
- 13 New Method for Destroying Organic Contaminants and Recycling Wastewater from PCB and MF Manufacturing Process Effluent Streams - N Bains, M Goosey and N Wright

### Transactions

- 1 Minutes of 2003 AGM
- 8 Electroplaters – Where Have They Come From? -D R Gabe
- 14 Electrodeposition of Chromium Black from Ionic Liquids - A P Abbott, G Capper, D L Davies, R K Rasheed, J Archer and C John
- 18 Surface Characterisation Studies of CrVI and CrIII Electroplated Carbon Steel Samples - H Xu, R Akid and G Brumpton
- 24 Joining of passive dissimilar metals – Ti, SS and AL: An emerging application of electrodeposition - G Sheela, Ch Ramkishan Rao, S Syed Azim, K Kumar and M Pushpavanam
- 29 Wastewater Treatment using Waste Derived Biosorbent: An Industrial Scale Demonstration - D B Ward, R Edyvean and E Archer
- 33 Regeneration and decontamination of a nickel citrate complex in spent electroless nickel plating solutions - O Gylien , J Aikaitė , R Tarozaitė and I A Dolgov
- 38 Sorption of Ni(II)-citrate complex from electroless nickel plating solutions onto chitosan - O Gylien , R Tarozaitė and O Nivinskin.
- 43 Chemical deposition of metal composite coatings on plastics - M Petrova
- 51 Microstructure, Morphology and Corrosion Resistance of Electrodeposited Zinc-Cobalt Compositionally Modulated Alloy Multilayer Coatings - M E Bahrololoom, D R Gabe and G D Wilcox
- 59 Properties of 'Sulpho-Chromispel-I' electrolyte of standard concentration for the electrodeposition of chromium -R Mantcheva
- 64 The Structure and Texture Development of Ni Alloy Electrodeposits – III Nickel-Zinc Electrodeposits -D B Lewis, C E Lehmberg and G W Marshall
- 71 Temperature of maximal cavitation intensity of glycol ethers in ultrasonic cleaning - B. Niemczewski
